

# Wildlife Tracking 101

Do you see those tracks? Have you ever wondered what they belong to or where they are going? At the Bartlett Nature Center, we can teach you all you need to know about animal tracks. Join us as we learn about the different tracks that animals make, how to use those tracks to learn about animal movement patterns, and do some tracking crafts. We will also be going on a hike, weather permitting, to track the animals in the area. Come follow in our footsteps. (MG)
