

The Science of Life

Learn about DNA and how it makes living things the way they are. Experiments will include extracting DNA from a strawberry to see the real thing. Learn about pigmentation of leaves and why they change color in the fall. Plants' DNA works in such a way that different colors are present at different times of the year. There will be an experiment to separate all the colors leaves can produce. Class includes a craft. All materials provided and crafts/results of the will be taken home. **(DM)**

Age: 10-13

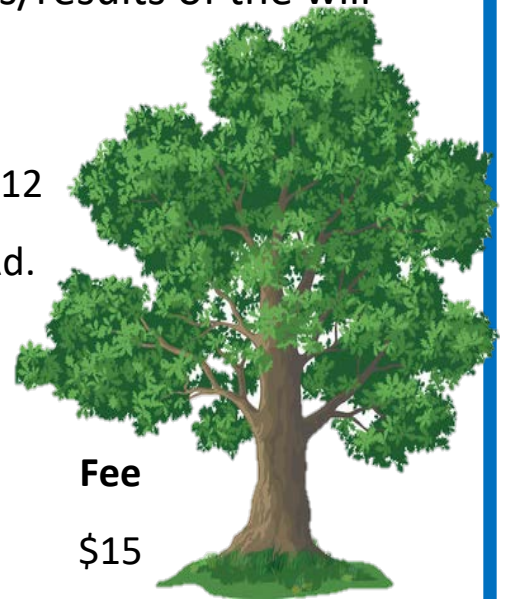

Limit: 6/12

Location: Bartlett Nature Center, 2054 W. Stearns Rd.
James "Pate" Philip State Park

Instructor: Nature Center Staff
