**\*No camp on July 4**

#### **NEW!** Nature Detectives

Embark on exciting scavenger hunts to discover hidden treasures in the outdoors as we combine exploration and discovery to become a Nature Detective. Search for animal tracks, go on a bug safari, and use tools to closely examine nature.

#### **NEW!** Tiny Artists

Spark creativity, foster sensory experiences, and ignite a love for the natural world through hands-on art. Use leaves, flowers, twigs, and other natural materials when we explore the art of leaf printing and more.

#### **NEW!** Mini Scientists

Investigation, imagination, and hands-on activities provide a way to connect to the natural world. Nature walks, creative art sessions, and meeting animals suitable for young children in a supervised setting will foster a love for wildlife.

#### **NEW!** Little Campers

Ignite curiosity, foster a love for the outdoors, and create unforgettable memories as we go on scavenger hunts, learn campfire safety, discover treasures on leaves, flowers and small rocks and even play nature-inspired games while learning how to be a safe camper this summer.

#### **NEW!** Fossil Finders

This is a unique opportunity to discover ancient life as we unearth the excitement of fossils! Enjoy simulated "dino digs," discover hidden fossils, and use paleontology tools to become a scientist.

#### **NEW!** Snakesssss

Explore the mysterious world of snakes through fun activities, games, and hands-on experiences and snake-inspired fun and learning! Creative art and craft sessions to make snake-themed crafts, storytelling featuring snake adventures, and an exciting scavenger hunt.

#### **Water World**

Learn about water with playful activities and creative crafts. Splish, splash, and enjoy water play with bubble-blowing stations and foam play for a bubbly and sensory experience. Giggle with aquatic toys and do art projects that capture the fluidity and colors of water.

#### **Messy Science**

A hands-on, messy adventure awaits campers as we learn the wonders of science through colorful experiments. Enjoy bubble-making experiments using different solutions and tools and outdoor bubble play and much more messiness.

#### **Critter Camp**

Discovery and hands-on encounters with friendly critters, as will help us journey into the wild. Enjoy safe and gentle critter connections suitable for young explorers. Be prepared to walk on the wild side during nature walks, art projects and even yoga poses.

#### **NEW!** Green Thumbs Gardening

Experience hands-on garden adventures where little ones explore the wonders of plants, flowers, and nurturing a garden. Gardening fun and outdoor exploration will have us planting seeds and creating mini gardens.

#### **NEW!** Pollinator Pals

Buzz into this hands-on adventure to discover the role of pollinators in our ecosystem. We will explore flower-filled fun, interactive learning, exploring the world of pollinators through butterflies, birds and bees.
